Suggested Tools

Safety Glasses
Phillips Screwdriver

Installation

Warning

Rider and passenger safety depend upon the correct installation of this kit. Use the appropriate service manual procedures. If the procedure is not within your capabilities or you do not have the correct tools, have a qualified technician perform the installation. Improper installation of this kit could result in death or serious injury.

1. Remove all necessary parts to disconnect the negative battery cable from the battery.
2. Remove OEM license plate mount.
3. Clean area around the three holes in fender from the license plate mount removal with denatured alcohol, allow to dry 1-2 minutes.
4. Remove protective red film from Decorative 3-Hole Cover and place over the three holes in fender. Shown in **Figure 1**.

Note

Please make sure Decorative 3-Hole Cover is lined up straight before installation, it will be difficult to remove without damage.

Questions? Email: Info@CustomDynamics.com or Call us at: 1(919)554-0949 M-TH 8:30AM-5:30PM, F 9:30AM-5:30PM EST

5. Reconnect the negative battery cable to the battery and reinstall all necessary parts, installation complete.
