## Installation

### Warning

Rider and passenger safety depend upon the correct installation of this kit. Use the appropriate service manual procedures. If the procedure is not within your capabilities or you do not have the correct tools, have a qualified technician perform the installation. Improper installation of this kit could result in death or serious injury.

1. Remove all necessary parts to disconnect the negative battery cable from the battery.
2. Remove the OEM taillight by removing the two OEM Phillips head screws, save for reuse.
3. Connect the Custom Dynamics® Low Rider ST Taillight Adapter to the motorcycles taillight harness and to the new Custom Dynamics® or ProBEAM® LED Taillight (**sold separately**). Shown in **Figure 1**.
4. Install the new Custom Dynamics® or ProBEAM® LED Taillight (**sold separately**) by reusing the two OEM Phillips head screws. Refer to the Custom Dynamics® or ProBEAM® LED Taillight instructions for installation.
5. Reconnect the negative battery cable to the battery and reinstall all necessary parts.
6. Test the new Custom Dynamics® or ProBEAM® LED Taillight for proper operation.
